

Kaiser. Performance counts.

CityCycler

Neprekidna reciklaža vode u malim dimenzijama
Continuous water recycling in compact dimensions

KOMBINOVANO ČIŠĆENJE KANALIZACIJE
SA RECIKLAŽNOM VODOM
COMBINED SEWER CLEANING
WITH WATER RECYCLING

CityCycler

Neprekidna reciklaža vode u malim dimenzijama

CitiCicler je najmanje vozilo za čišćenje kanalizacije sa neprekidnim recikliranjem vode, izgrađen na šasiji sa 2 osovine sa ukupnom težinom od 18 tona. Kompaktne dimenzije vozila omogućavaju maksimalnu pokretljivost u uskom prostoru.

Visoke performance, efikasnost i lako rukovanje

KDU, KWP i ROTOMAX su proverene komponente za vozila. Kontrolni sistem KAISERtronic osigurava visoke performance, udobnost rada i kao što je poznato visoke radne performance.

Tehnička specifikacija

> Zapremina rezervoara

Rezervoar za mulj 4600 L, rezervoar za čistu vodu 1000 L, pomoćni rezervoar za vodu 450 Li

> Pumpa visokog pritiska

Vodena pumpa visokog pritiska KDU 148 sa maks. protokom od 220 litara / min i maks. radni pritisak od 200 barakum pumpa

> Vakum pumpa

KAISER vakum pumpa KWP 900i sa max. protokom vazduha od 900 m³/h

> Dimenzije

Dužina 6590 mm, ukupna visina 3110 mm, međuosovinsko rastojanje 3525 mm

Continuous water recycling in compact dimensions

The CityCycler is the smallest sewer cleaning vehicle with continuous water recycling, built on a 2-axle chassis with a gross vehicle weight of 18 tons. The vehicle's compact dimensions allow for maximum mobility in confined spaces.

High-performance, efficiency and user-friendliness

KDU, KWP and ROTOMAX are the proven core components of the vehicle. The KAISERtronic control system ensures high operating comfort as well as an efficient working performance.

Technical specifications

> Tank volume

Sludge tank 4600 liters, fresh water tank 1000 liters, service water tank 450 liters

> High-pressure pump

High-pressure water pump KDU 148 with a max. flow rate of 220 liters/min and a max. working pressure of 200 bar

> Vacuum pump

KAISER water ring vacuum pump KWP 900i with a max. airflow of 900 m³/h

> Dimensions

Length 6590 mm, overall height 3110 mm, wheelbase 3525 mm
