

XPECTION - Hose guide XHG

The hose guide with aluminum rolls protects and guides the high-pressure hose. The stainless steel holder for the manhole unit of the XPECTION sewer cleaning system which is mounted to the hose guide enables a safe and solid installation. Electronic components in this product are robustly built and protected against impacts, corrosion and water ingress. The Pole XPP offers an alternative possibility to safely position the manhole unit in the manhole.

TECHNICAL DATA - HOSE GUIDE XHG

Nominal pipe diameters	ab DN 225 (from 9 inch)
Material (frame)	stainless steel
Material (rolls)	aluminium
Material (antenna)	POM/aluminium
Dimensions antenna [LxWxH]	75 x 75 x 65 mm (3 x 3 x 2.5 inches)
High-pressure hose diameter	DN 25/32 (1" / 5/4 ")
Metre counter	integrable
Aluminum rolls	3 pieces
Roll diameter	88 mm (3.5 inches)
Angular positions	4
Angle selection	3 different sizes

- protects the high-pressure hose from wear and abrasion
- solid installation of the manhole unit possible
- antenna can be positioned in the center of the pipe to reach a high range
- high-quality processing for a good functionality and a long service life
- even after inserting the nozzle through the use of split pins the hose can be mounted to the hose guide
- 3 different angle sizes and 4 possible positions enable a perfect positioning
- meter counter can be integrated in the hose guide independent of the vehicle
