

XT5

MAGNETIC MANHOLE COVER OPENER WITH FIXED HANDLE FOR MEDIUM-HEAVY MANHOLE COVERS

The **XT5** is an ultra-compact magnetic manhole cover opener with a rigid handle and a hook lever at the end for use as a mechanical lifter. The new magnetic plate guarantees a maximum lifting force of 300 kg.!

TECHNICAL CHARACTERISTICS

Code	K0576	
Weight	Kg	3,5
Base diameter	cm	14
Extended length	cm	70
Lifting power	Kg	300 (in ideal conditions*)
Magnets number		9

* Attraction force tests performed on a C36 iron base with a thickness of 18 mm. The forces of attraction can vary according to the thickness and material of the base to be lifted. Tolerance ± 5

Can be used as a hooking lever in the slots for mechanical lifting.
