

THÖNI

# FAVORIT COMPETITION

Outstanding lightweight hose for new records at fire fighting competitions!

## STRUCTURE

- weaving made of high tenacity multifilament polyester yarn, circular woven
- lining made of ageing and ozone-resistant polyurethane (PU)

## ADVANTAGES

- feather-light hose construction thanks to PU lining
- very abrasion resistant and highly elastic
- excellent visibility and insensitivity to dirt thanks to black base color with orange-yellow identification strip
- additional oil and petrol resistance
