

THÖNI KSS

Flat rollable cable protection hose with inner weaving and abrasion-resistant EPDM outer rubber coating. For bundling cables or as protection for cable packages and cords.

STRUCTURE

- weaving (inside) made of high tenacity multifilament polyester yarn
- abrasion resistant EPDM outer-coating (optional with PU outer-coating)
- exceptionally good adhesion values thanks to special vulcanizing process

ADVANTAGES

- protects cables/cords from abrasion, dirt, moisture and temperature stresses
- easy to pull in thanks to very smooth weaving made of polyester yarn
- highly elastic and particularly practical for applications with limited space
- low wear, resistant to low and high temperatures
- ageing and ozone resistant
