

THÖNI PU AQUA

Our proven layflat drinking water hose.
Produced according to the "TPE-Übergangsempfehlung des Umweltbundesamtes" (formerly KTW) as well as to the DVGW-worksheet W270.
Can be used for fresh water applications such as filling water tanks, in emergency and disaster supply, in waterworks, etc.

STRUCTURE

- weaving made of high tenacity multifilament polyester yarn, circular woven
- inner and outer layer made of high-end polyurethane
- extruded through the weaving in one production process

ADVANTAGES

- extremely abrasion resistant and durable
- impressive tensile strength
- resistance to low and high temperatures (-50°C to 75°C)
- resistant to oil, petrol and chemicals
- excellent ageing and ozone resistance
